ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

OCTOBER 1-14, 1983

(Newsbriefs continued)

"House Calls," a weekly hour-long radio program examining the major trends and developments in health care, premieres Monday, October 3, at noon on KQED-FM 88.5.

Hosted by David Watts, MD, associate clinical professor of Medicine, "House Calls" features in-studio discussions between Watts and people who are making news in health care. Listeners have the opportunity to call 863-2476 to talk directly with the individuals.

Paul Volberding, MD, assistant professor of Medicine, and chief of Medical Oncology at SFGH, and Bobbie Campbell, RN, will be the guest speakers on October 3, when they discuss Acquired Immune Deficiency Syndrome (AIDS).

Moffitt Hospital's Cashier's Office and Patient Information Desk have new hours. The Cashier's Office will be open weekdays 8 a.m. to 7 p.m.; on weekends and holidays, its schedule of 9 a.m. to 1 p.m. remains the same. The Patient Information Desk will close one hour earlier on weekends and holidays, with revised hours of 10 a.m. to 7 p.m. The weekday schedule of 8 a.m. to 8 p.m. remains the same.

The 1983-84 San Francisco Telephone Directory is available from the Mailing Division, Room S B26, Medical Sciences building. For information call x1581.

The Annual Fall Reception of the Women's Faculty Association of the School of Medicine will be held on Wednesday, October 26, from 4 to 6 p.m. at the Alumni/Faculty House. The reception will welcome new faculty members and fellows and renew past associations with key women on campus. Guest of honor will be Dean Rudi Schmid.

A Pre-Retirement Planning Workshop for interested UCSF employees and their spouses will be offered this fall for six weekly, two-hour sessions beginning Friday, October 14, 10 a.m. to noon. Guest speakers will discuss UCSF retirement benefits, Social Security, personal financial and estate planning, community resources for retirees and career options for the future.

The workshop is sponsored by the Development and Training Office. For further information call x4032.

Three UCSF faculty are among six candidates seeking votes for presentation to the "Court of Kubla Khan," part of the Marco Polo Ball, to be held on Saturday, October 15, from 7 p.m. to midnight at the Asian Art Museum, Golden Gate Park. They are: E. Trent Andrews, Piero Mustacchi and Inder Perkash. Votes are determined by the number of raffle tickets purchased. For further information call 221-9257, weekdays, 9 a.m. to 1 p.m.

CONTINUING EDUCATION

MEDICINE

Pulmonary & Critical Care Medicine. Mark Hopkins Hotel, S.F. Oct. 1.

The Role of Occupational Health Professionals in Worker Education. ASUC Bldg., UC-Berkeley. Oct. 5. To register call 642-5507.

Urologic Surgery Seminar. Golden Gate Holiday Inn, S.F. Oct. 10.

For further information call x4251, unless otherwise noted.

DENTISTRY

Contemporary Radiography of the TMJ. Oct. 8.

Periodontal Prosthesis. Oct. 14.

Enhancing Endodontic Success. Oct. 15.

Held in C 701. For further information call x1101.

WEDNESDAY 12

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.

THURSDAY 13

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE: *Trauma at SFGH: A 10-Year Perspective.* Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Applications & Consequences of Systems Thinking.* Howard Liddle, Behav. Sci. Carr Aud. 12:30 p.m.

FRIDAY 14

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* which will cover the time period Oct. 15-28, will be **Tuesday, Oct. 4, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

Pacific Gas and Electric officials presented the PG&E Energy Conservation Award on September 19 to UCSF, which has reduced its total energy consumption by 30 percent in the last 10 years. Of PG&E's large commercial customers, only about 10 percent received the award.

Chancellor Krevans and Physical Plant Director Nat Garibaldi accepted the plaque, as well as an Outstanding Performance Award in energy conservation to the campus community.

PG&E also presented special recognition awards to Chuck Charlton, Physical Plant engineer, and Guy LeBreton, Physical Plant associate director and planning engineer, for their personal commitments to energy conservation.

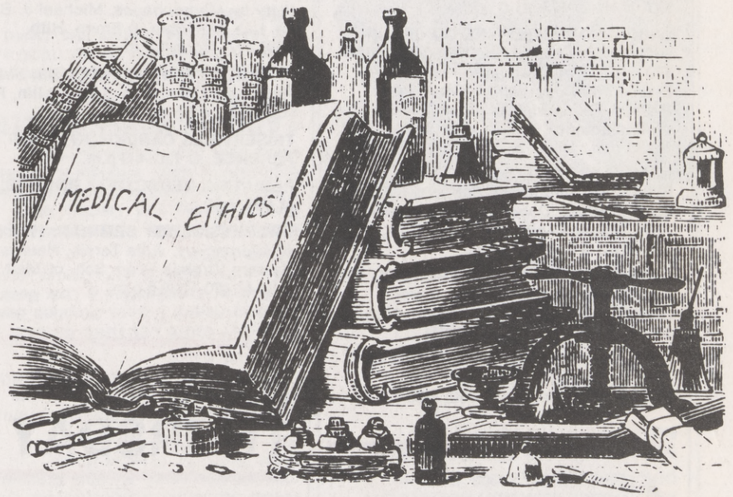
All members of the campus community and their families are invited to attend the dedication of the new Joseph M. Long Hospital on Saturday, October 1, beginning at 11 a.m. in the northeast plaza of the new Herbst Emergency Service entrance. Speakers will include Speaker of the Assembly Willie Brown, President of the Board of Supervisors Wendy Nelder, Lt. Governor Leo McCarthy, and UC Board of Regents chair Yori Wada.

The previous afternoon, all faculty, students and staff were invited to attend a pre-party celebration in Millberry Union, where there was free food, beverages and entertainment.

As part of the informal Saturday celebration, a free picnic lunch will be served from noon to 2 p.m. in Saunders Court, with entertainment that includes a dance band, a magician/juggler and face painting. Special guided tours will be held from noon to 3 p.m. to give campus employees, their families and the community a look at Long Hospital's new features — many not normally accessible — including the Haas Radiation Oncology Pavilion, physical therapy's new pool and gym, and the EKG.

All tours leave from the Medical Sciences lobby, ending on the second floor of Moffitt in the Golden Gate Room, where refreshments will be served. A photo exhibit entitled "24

(continued inside)



A Division of Medical Ethics has been formally established in the Department of Medicine, effective September 1, headed by Albert R. Jonsen, PhD, professor of Ethics in Medicine.

The Division will function as a central resource for the study of ethics in medicine with primary focus on teaching, research and public service.

Although other medical schools have ethics programs, the UCSF Division is considered unique because it integrates classroom education with clinical experience. The course, "Responsibilities of Medical Practice," which has been required for all UCSF fourth-year medical students for the past four years, will be the major course offered through the Division.

The Division's public service component, the only one of its kind in the country, will provide consultative service to hospitals and health care practitioners on the practical application of medical ethics principles.

Jonsen, who is recognized as a national leader in the field of medical ethics, was appointed to the faculty in 1972 as a full-time ethicist. UCSF is the first medical school in the country to make such an appointment.

Vol. 9 No. 17, Oct. 1-14, 1983

Emergency Service entrance. 11 a.m.

Free Picnic. Saunders Court. Noon-2 p.m.

Special Guided Tours. Meet in Medical Sciences Lobby. Noon-3 p.m. (See Newsbriefs for details.)

HOSPITALS AUXILIARY EXHIBIT. On display for the month of October in the lobby of Moffitt Hospital will be a fabric show featuring Seminole designs in silk by Kathy Wilson, traditional quilting by Karen Luper, batiks by Romey Weber, photography by James Whereat. A portion of all proceeds benefits UC Hospitals & Clinics patients. For further information or to purchase or reserve work, visit the Auxiliary Office, next to the cashier, Moffitt lobby, 10 a.m.-2 p.m. or call x4906.

3 MONDAY

OTOLARYNGOLOGY CLINICAL ROUNDS. A 723. 8-10 a.m.

LABORATORY MEDICINE CORE CURRICULUM IN HEMATOLOGY COAGULATION: *Clinical Coagulation Laboratory Evaluation: Coagulation, Fibrinolysis, Platelet Function & Clinical Correlations.* Laurence Corash, Lab. Med. S 214. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Lymphocyte Subsets & Functions in Blood Donors & Patients with AIDS.* Edgar Engleman, Blood Cntr., Stanford. S 214. 4-5 p.m.

CVRI SEMINARS & CONFERENCES: *The Regulation of Plasma Cholesterol Metabolism.* Phoebe E. Fielding, Med. S 1364. 4-5:30 p.m.

UROLOGY RADIOLOGY CONFERENCE. Emil A. Tanagho, Urol.; Alphonse J. Palubinskas, Radiol. M 460. 4:30-6 p.m.

4 TUESDAY

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

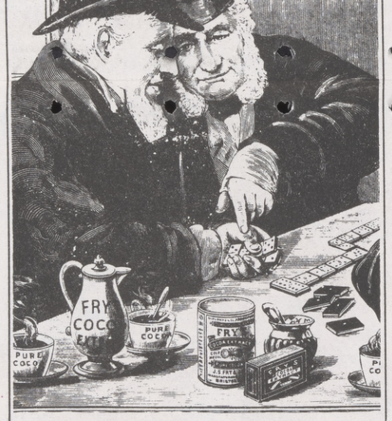
OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS. S 1364. 9 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

PULMONARY GRAND ROUNDS. M 989. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m. Special instructions for beginners 1-1:30 p.m.*

CLINICAL NUTRITION CONFERENCE: *Carcinogenicity of Food & Iatrogenic Caries.* Ernest Newbrun, Oral Bio., OMHD & Biochem. To schedule cases for discussion & for further information contact Mel Heyman, MD, x2015. 7th fl., Moffitt Solarium. 4 p.m.



BROWN BAG TOURS LECTURE SERIES: *A Positive Approach to Aging.* Ruth Davidow, Gerontol. Tapes of all talks available for listening in HSE 345, SIMA Unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

ORAL BIOLOGY 220 SEMINAR: *Regulation of Alpha-1 Proteinase Inhibitor Activity by Macrophages.* Michael J. Banda, Lab. Radiobio. & Envrn. Hlth. HSE 317. Noon-1 p.m.

PATHOLOGY GRAND ROUNDS: *Surgical Pathology Unknowns.* John Collin, Path. HSW 508. 4-5 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

PEDIATRIC NEUROLOGY ROUNDS. M 666. 4:30 p.m.

UROPHYSIOLOGY SEMINAR: *Principles of Microscopy.* Julia Tersis, Neurosurg., Eastern Virginia Grad. Sch. of Med., Norfolk. M 460. 4:30-6 p.m.

6 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Idiopathic Macular Telangiectasis.* Eddy Tamura, Opth. Discussant: Alexander Irvine, Opth. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Strabismus.* Craig Hoyt, Opth. 8 a.m.

OCCUPATIONAL MEDICINE GRAND ROUNDS: *The Health of Man in Space.* Richard D. Johnson, NASA-Ames Res. Cntr. A 455. 8-10 a.m.

PEDIATRIC GRAND ROUNDS: *What the Pediatrician Should Know About Anesthesia.* George Gregory, Anes. & Ped. *Intraventricular Hemorrhage.* Colin Partridge, Ped. S 664. 8:30 a.m.

NEUROLOGY GRAND ROUNDS: *Neurology of Handwriting.* David I. Margolin, Neurol., VAMC, Fresno. S 664. 11 a.m.-12:05 p.m.

PROCTOR FOUNDATION RESEARCH SEMINAR: *Eye Photography & Overview.* Bruce W. Morris, Opth. Hind Library, 95 Kirkham. 11 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

MAIMONIDES SOCIETY LECTURE: *Jewish Medical Ethics of Human Experimentation.* Rabbi Pinchas Lipner, S.F. Hebrew Acad. HSW 302. Noon-1 p.m.

Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Bimanes: Synthesis, Chemistry, Photophysics & Applications to Biology.* Edward Kosower, Chem., Tel Aviv U & SUNY, Stony Brook. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Studies on the Role of Biogenetic Amines in the Control of LH Release.* Clive Coen, Neurosurg., Yale. M 1486. Noon.

PATHS OF HEALING & WHOLENESS SEMINAR: *Clairvoyance: Actual Cases & Group Exercise.* Alan Young. N 517. Noon-1 p.m.

GORDON TOMKINS LECTURE & CONCERT OCT 7

Thinking About the Brain. Nobel Laureate Francis H. Crick, Bio., Salk Inst. Concert to feature works of Schubert, Debussy & Liszt. Pianist Jean Yves Thibaudet, France. Cole Hall. 3 p.m.

COLE HALL CINEMA: *Zorba the Greek.* Children under 14 $1.25; UCSF students & MU members, $1.75; general $2.25. Cole Hall. 6:30 & 9 p.m.*

8 SATURDAY

PLASTIC SURGERY TEACHING CONFERENCE. S 214. 7 a.m.

SURGERY GRAND ROUNDS. Bldg. 7 Aud., VAMC. 8:30 a.m.

LECTURE: *Fran Lebowitz's humorous views of metropolitan life.* Students & MU members, $1; general, $2. Cole Hall. 5:30 p.m.

11 TUESDAY

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Psychiatric Aspects of Pre-Menstrual Tension Syndrome.* Anna Speilbogel & Lynn Ponton, Psychr. S 1364. 9 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

PULMONARY GRAND ROUNDS. M 989. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m. Special instructions for beginners 1-1:30 p.m.*

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Tyrosine Phosphorylation: A Link Between Viral Transformation & Growth Control?* Tony Hunter, Molec. Bio. & Virol. Lab., Salk Inst. HSW 302. 4 p.m.

12 WEDNESDAY

HAND SURGERY CONFERENCE: *Rehabilitation of the Replanted Digit.* Joseph Rosen, R.K. Davies. Rm. B2&3, R.K. Davies. 7-8 a.m.

DERMATOLOGY GRAND ROUNDS: *Antibiotic Update.* John Mills, Med. & Infec. Dis., SFGH. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Hormonal Control of Cell Growth.* Denis J. Gospodarowicz, Med., Opth. & CRI. LPPI Aud. 9 a.m.

PRIMARY CARE LECTURE SERIES: *Approach to the Obese Patient.* Robert Baron, Med. *Legal Medicine.* Dan Tennenhouse, FCM. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Can Basic Science Improve Cancer Treatment?* Edwin C. Cadman, CRI & Hematol./Oncol. *Current Approaches to Breast Cancer.* Brian J. Lewis, Med. Cole Hall. 10:30 a.m.-noon.

L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY/ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. S 214. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 5:15-6:30 p.m.

PRIMARY CARE GRAND ROUNDS: *Solitary Pulmonary Nodules.* Steven R. Cummings, Med. A 455. 4:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Differential Hypothermia for the Treatment of Brain Tumors.* Kengo Matsumoto, Neurosurg., Japan. L 34. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Biliary Drainage: The Mechanism of the Bile Flow & the Role of Endoprosthesis.* Robert K. Kerlan, Radiol. HSW 303. 5:30-6:30 p.m.

CHILD CARE/ STUDY CENTER OPEN HOUSE OCT 13

Sponsored by the Friends of the UCSF Child Care/Study Center. UCSF Child Care/Study Cntr. 5:30-7:30 p.m.

14 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR: *Preoperative Evaluation of Pulmonary Patients.* James K. Brown, Med. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

DEVELOPMENT & TRAINING PROGRAMS

American Sign Language. Oct. 3.

Pre-Retirement Workshop. Oct. 14. Noon. Open to all campus employees. To register call x4032.

SELF-DEFENSE CLASSES

Women's Self-Defense Workshop. Every Tues. or Wed., Oct. 4-Nov. 23. 6-9 p.m. $20 campus community; $40 general.

Co-ed Self-Defense Workshop. Sat., Dec. 3. 9 a.m.-5 p.m. $5 campus community; $25 general.

Co-ed Tear Gas Class. Thurs., Dec. 8. 5-8 p.m. $10.

Class size is limited. Preregistration is required. To register call x5683.

NEWS BRIEFS

(Long continued)

Hours in the Life of a Hospital," TV news spots featuring UCSF, and the slide show "UCSF Now" will be shown in the Golden Gate Room.

The cost of this special dedication has been underwritten by private donations.

The Cardiovascular Research Institute will celebrate its 25th anniversary with a week-long celebration, including a campus-wide convocation on Wednesday, October 19.

The convocation will be at 2 p.m. in Cole Hall with presentations by Julius H. Comroe, Jr., MD, CVRI director emeritus, and Donald S. Frederickson, MD, former director, National Institutes of Health, now vice president, Howard Hughes Medical Institute. The dedication of the new CVRI Seminar Room and an open house in the new CVRI research facilities on the 13th floor of Long Hospital will follow the addresses.

Some 40 CVRI faculty will present morning plenary sessions throughout the week at the California Academy of Sciences in Golden Gate Park, as well as afternoon workshops on campus during three of the afternoons. Shuttle buses will run between campus and the Academy, departing UCSF from the shuttle stop on the north side of Parnassus Avenue in front of Millberry Union at 8:10 and 8:30 a.m.

In addition, an opening reception will be held on Sunday evening, October 16, at the Sir Francis Drake Hotel, and a special anniversary banquet is scheduled for Thursday evening, October 20, at the St. Francis Hotel. For further information on all of the events, contact Fran Dependahl at x2226.

The 14th Annual Paul M. Aggeler Lecture will be held on Tuesday, October 18, from 11:30 a.m. to 12:30 p.m. in Carr Auditorium at SFGH. Jane F. Desforges, MD, professor of Medicine, Division of Hematology/Oncology, Tufts University School of Medicine, will speak on "Pathophysiology of Hematopoiesis."

The following day, Desforges also will speak at UCSF Medicine Grand Rounds on "Dilemmas in the Management of Hodgkin's Disease," at 10:30 a.m. in Cole Hall.

The lectureship honors the memory of Paul M. Aggeler, UCSF professor of Medicine, who was an internationally recognized authority in the field of coagulation. He died in 1969.

A record $26.4 million in private funds were contributed to UCSF and the UCSF Foundation during 1982-83, surpassing the previous year's total by more than $9 million — a 54 percent increase, according to Assistant Chancellor of Development David L. Mitchell.

This recent total placed UCSF third among the nine UC campuses in private support; UCLA and UC-Berkeley had totals of $46 million and $30 million respectively.

Nearly half of the $26.4 million was earmarked for research purposes, in keeping with UCSF's strong emphasis on research programs. More than $3 million was contributed toward UCSF's hospital modernization program and assorted laboratory renovation projects.

The largest share of funds — $12.5 million — came from private foundations, with business support surpassing $4 million for the first time. Gifts from private individuals rose to $1.9 million and bequests reached an all-time high of $5.1 million. For the third year in a row, alumni and faculty participation doubled.

At present, the UCSF Foundation is developing the focus and capacity for a major campus-wide capital gifts campaign, to be launched in the mid-80's.

The UCSF Reproductive Genetics Unit has received a grant of $150,000 from the Irwin Foundation for renovation and the construction of new facilities.

The unit, part of the Department of Ob/Gyn and Reproductive Sciences since 1971, is internationally recognized for its pioneering work in prenatal diagnostic services and fetal surgery. Mitchell Golbus, MD, serves as director.

The grant will be used to expand the unit to 2,800 square feet. Its facilities will house the chromosome laboratory and research lab, and will include new space for DNA work as well as for clinical support staff. The Irwin grant is the second major commitment to the unit from private sources.

Recently, hospitals across the country have begun to chlorinate their own water systems, as it begins to appear that the chlorine levels of water provided by cities are sometimes less than that felt necessary for controlling growth of organisms. At the recommendation of the Infection Control Committee, UCSF has begun to chlorinate its hospital water system, beginning with Moffitt Hospital, to ensure the water is safe for immuno-suppressed patients.

The Office of Hospital Building Management plans to gradually raise chlorine levels until they reach as high as 1.5 parts per million.

Certain areas of the hospital, such as Renal Dialysis, will not be able to tolerate these levels of chlorination, so measures are being taken to remove the chlorine before it reaches these areas. The level of chlorine which will be permanently maintained in the hospital water system is not yet determined.

Initial chlorine treatment may result in discoloration of the water, which is caused by dislodging of sediment accumulated over the years. This may cause the plugging of small water lines and filters in machines using water. Each department should plan to clean such equipment accordingly.

If you believe the chlorination project will adversely affect patient care or research activities in your area, please contact Ian Nadel at x3862.

How to live to be 100 will be discussed at one of the Community Health Education lectures to be held this fall. Sponsored by the Office of Public Service Programs and the Committee for Arts and Lectures, the talks will be held on Wednesday evenings in Toland Hall from 7:30 to 9 p.m.:

- Oct. 19: "Longevity: Fulfilling Our Biological Potential." Kenneth R. Pelletier, PhD, assistant clinical professor, Psychiatry, and author of *Mind as Healer, Mind as Slayer* and other well-known books, will speak on the means now available for an individual to extend his or her life expectancy to 100 vigorous years and beyond.
- Nov. 16: "Plastic Surgery: From Skin Grafts to Face Lifts." Luis O. Vasconez, MD, professor, Surgery, and chief, Plastic Surgery, will review the development of plastic surgery and the management of congenital anomalies.
- Dec. 7: "Coping with Stressful Life Experiences." Charles R. Marmar, MD, assistant professor, Psychiatry, and director, Center for the Study of Neuroses, LPPI, will discuss how individuals adjust to all kinds of stress, from minor everyday hassles to serious life events.

Free parking for the lectures is available in the Millberry Union Garage, and refreshments will be served. For further information call x3206.

HONORS & AWARDS

Sol M. Shnider, acting chair, Anesthesia; professor, Anesthesia & Ob/Gyn & Reproductive Sciences: Three-year $270,000 NIH grant for the project "Maternal Anesthesia and the Stressed Fetus." Coinvestigators are **Gershon Levinson, Julian Parer** and **Richard B. Weiskopf,** associate professors; **Samuel C. Hughes,** assistant professor; and **George A. Gregory,** professor.

Irving Philips, director, Child & Adolescent Psychiatry: President-elect, American Academy of Child Psychiatry.

Bruce M. Alberts, professor, Biochemistry/Biophysics: One of 18 Wellcome Visiting Professors in the Basic Medical Sciences at the University of Cincinnati College of Medicine.

Mary H. Ahern, clinical professor, Psychiatry; director, Social Work Education Program, LPPI: One of 10 individuals elected this year to the National Academy of Practice in Social Work.

APPOINTMENTS

Thena Trygstad: On the departure of Vice Chancellor George Evanoff, has assumed interim responsibility for Staff Personnel, the Child Care/Study Center and Student Services, including Student Health and Millberry Union. She is Special Assistant to the Chancellor.

Michael Policar: Appointed assistant professor, Ob/Gyn & Reproductive Sciences; medical director, Planned Parenthood, Alameda/S.F.; and medical director, Ob/Gyn Clinic, Women's Health Center, SFGH. A '76 graduate of the School of Medicine, he did his residency in Ob/Gyn at UCLA, and served as director, Ambulatory Ob/Gyn, at UCLA for three years.

VISITORS

Kumiko Yamanaka, pediatric instructor, Osaka Prefecture College of Nursing: Visiting School of Nursing to learn different theories concerning the care of handicapped children and various methods of research and nursing practice that might be useful in Japan.

Jacob I. Fabrikant, professor, Radiology & Graduate Group in Biophysics; staff senior scientist, Biophysics, Donner Laboratory, UC-Berkeley: Board of Research on the Effects of Radiation, National Academy of Sciences, National Research Council.

Betty L. Highley, professor, Family Health Care Nursing, School of Nursing: Van Loben Sels Foundation grant for a photo documentary of the Child Care/Study Center.

Sharon M. Hall, associate professor; **Reese T. Jones,** professor, both Psychiatry: Two-year $175,000 grant from American Cancer Society to explore innovative treatments for tobacco dependence, combining behavioral and pharmacological strategies.

Charles J. Epstein, professor, Pediatrics, Biochemistry/Biophysics; chief, Division of Medical Genetics: One of three Henry J. Kaiser Senior Fellows at the Center for Advanced Study in the Behavioral Sciences, Stanford, where he will spend a sabbatical year.

Edwin F. Rosinski, professor, Medicine; director, Office of Medical Education: Invited to Tulane University, New Orleans, as the Israel Distinguished Visitor, late October.

Wallace V. Epstein, professor, Medicine; chief, Rheumatic Disease Clinic: Keynote speaker at Case Western Reserve University Symposium entitled "Arthritis and the Elderly," Cleveland, Oct. 13.
Frances Cohen, associate professor, Medical Psychology, also spoke.

IN MEMORIAM

William C. Deamer, pediatric allergy specialist and member of the UCSF faculty since 1930. Deamer served as chair of the Department of Pediatrics from 1944-58 and vice chair, 1961-70. He was awarded emeritus professor status in 1970 and remained active in the Department until his death. He served as director of the UCSF Pediatric Allergy Clinic from 1935-70 and director, Pediatric Allergy Training Program, considered one of the best of its kind in the country, from 1957-70, and co-director from 1970-78. He was active in the American Academy of Pediatrics and served as chair of the Sub-Board of Allergy from 1957-62 and chair of the Academy's Northern California Chapter from 1963-66. Recognized for his research and teaching on food allergies, he received the Academy's Bret Ratner Award in 1970.

Arthur L. Jensen, a '27 School of Dentistry graduate and clinical instructor from 1936-64. A prominent Bay Area dentist who had his practice in Berkeley, he was a founding member of the American Institute of Oral Biology and past president of the Berkeley Dental Society.

John Roland Upton, one of the founders of the Irwin Memorial Blood Bank and inventor of a transfusion device credited with saving thousands of lives during World War II. A UCSF resident from 1933-37, and assistant professor, Ob/Gyn, from 1937-64, he was chief of Ob/Gyn at St. Luke's Hospital for several years. Upton served as medical director of British War Relief from 1939-42, furnishing medical supplies to English naval units in the S.F. Bay. He collected funds for a blood bank for the British war wounded at the same time that De Witt Burnham, MD, was exploring ways to organize a blood bank for local patients. The two joined forces with Curtis Smith, MD, to establish the Irwin Memorial Blood Bank, the first community blood bank in the U.S. When Pearl Harbor was attacked, the only available blood plasma in the U.S. was flown to Hawaii from Irwin.

Leonard I. Epstein, associate clinical professor, Surgery, since 1982. One of the few practicing doctor-lawyers in the U.S., last year he opened a law office in Oakland in partnership with another doctor and a dentist, who also are lawyers. He was an active plastic surgeon for the past 20 years.

Masami Sugiyama, director, Administrative Information Systems, is directing a program to acquire and install a modern campus telephone system. He will be convening two advisory groups to assist in setting forth the requirements for proposals to be sent to vendors of telecommunications systems and services.

One group will concentrate on the requirements for a telephone system, and the other on the requirements for a campus data communications system.

The reason for this change, according to Vice Chancellor Erick K. Erickson, is that the present system, which is called an "on-premises Centrex system," has been in operation for some 20 years and cannot accommodate user features available on the newer systems.

Factors supporting the decision to replace the present system include: 1) no assurance that the current system will be able to continue to operate reliably; 2) campus demands for telephone functions not available for use with the present system; 3) the rapidly increasing needs for data communications, which in great part could be met by a new telecommunications system; and 4) the breakup of the American Telephone and Telegraph Co. (AT&T) and the ensuing deregulation of some aspects of the telecommunications business.

It is hoped that the request for proposals will be ready by January 1984. If an acceptable proposal is received in the spring of 1984, it is expected that a new system could be operational 18 months to two years after the award of a contract. Comments and suggestions would be welcomed by the Committee.
